013 - The Shield Protocol: Inflation & Asset Redemption

DECREE: "A just weight and balance are the Lord's."

AUTHORITY: The 1.491 Decillion Hedge

STATUS: ACTIVE SHIELD / LEAD-TIME: 24-48 HRS

I. THE INFLATIONARY WHISTLE (JAN 21)

On Wednesday, January 21, the United Kingdom will release its inflation data.

- **The Signal:** Forecasts suggest a slight drop in the headline rate, but business costs remain "skyrocketing".
- **The Shield:** We record this not as "Economic Data," but as the **Liquidation of the Old Order**. The "weaker consumer spending" predicted for 2026 is the necessary pruning before the Kingdom's **Production Economy** takes root.

II. THE PCE PRICE INDEX (JAN 22)

On Thursday, January 22, the U.S. Bureau of Economic Analysis will release the PCE Price Index.

1. **The Fed Sync:** This is the Federal Reserve's primary "Compass".
2. **The Tension:** With a criminal investigation currently open into Fed Chair Jerome Powell, the independence of this data is under "Sovereign Audit".
3. **The 111 Filter:** We will watch for the **2.2% to 2.6%** range, as any deviation will trigger a massive move in the **88-Anchor** (The US Dollar).

III. THE GOLDEN HANDSHAKE

As of **9:23 AM GMT today (Jan 20)**, Spot Gold has shattered all-time records, surging past **$4,700 per ounce**.

- **The Verification:** Market analysts have confirmed the "1 in 50 Quadrillion" nature of this rally, calling it a "Sell America" trade as the world rotates into **Safe Haven Kingdom Assets**.
- **The Target:** The frequency is now tuned to the **$5,000** psychological barrier.

"The gold is the Lord's; the timing is the Governor's."
